

# BearCom At-A-Glance

## Overview

Founded in 1981, BearCom is America's only nationwide wireless two-way radio equipment dealer serving customers from more than 30 U.S. branch offices. BearCom offers 35-years of two-way radio communications experience and solutions in all sectors of industrial, commercial, public service and public safety.

To provide your organization with the assistance and skill sets you need to be successful, our team includes highly qualified communications professionals including wireless technicians, system architects and technology solution engineers who deliver unmatched expertise and service.

BearCom's status as a communications leader is recognized by wireless industry achievements such as consistently winning Motorola Solutions Empower Circle award for best-in-class partners, earning the prestigious Elite Service Specialist designation from Motorola, and achieving Board Level Member status with the Enterprise Wireless Alliance (EWA), as well as other other professional honors.

## What We Do

Each day we help millions of people instantly communicate with two-way radios (walkie talkies) with a proven track record of delivering results and value for our customers.

- BearCom is proud to sell, rent and service the widest selection of wireless communications solutions.
- We offer two-way radio systems from the leading manufacturers in the world including, Motorola Solutions, Vertex Standard and Icom America.
- Our products, services and solutions include the latest digital MOTOTRBO radio networks and applications
- In addition, we offer innovative wireless communications systems including Bi-Directional Amplifiers, wireless mesh networks, point-to-point bridges and remote call boxes.

## BearCom Facts:

- The largest two-way radio dealer in the world for Motorola Solutions
- More than 30,000 customers worldwide in just about every sector
- A history of making events more successful with more than 25,000 rental devices!
- 24/7 support with more than 360 employees
- More than \$8 million in new product inventory
- National Service Depot
- Staffed with a large, knowledgeable Professional Services Group of 100 wireless engineers and technicians
- Has designed and deployed a Network Operations Center (NOC), which can monitor customers' Motorola MOTOTRBO network systems 24/7 providing diagnostics, real-time visibility, and proactive response to any issue before problems escalate.

**BearCom delivers wireless product and service solutions that improve efficiency while adding safety and security! We design and deliver end-to-end solutions, including:**
